Language falls to describe the salutary effects it produced, and the great benefit I derived from its use.

The citizens of Datton and vicinity, well recollect that on the 8th of Alignst last, I received serious injury from the explosion of a cannon. A portion of its contents entered my right side and breast; and in all probability, some fragments or splinters of the ramrod passed through the "plura," and pierced the Lungs.

After the lapse of about vix weeks, I was attacked with a distressing cough and violent prin in my right side. Some ten days after this, when in a parazyom of Coughing, suddenly an after broke, and a large quantity of very offensive matter, mixed with blood, was discharged; most of which found passage through the opening of the wound.

But with all their skill, they could not reach the seat of distress, after the Lange had become effected.

I was visited during this time by at least tweaty Physicians. It was the table and that this would terminate my life in a very short time, was in the highest degree probable.

At this critical stage, a messenger was despatched to Cincinnati, and a celebrated Physician of that place was consulted. When he was made acquainted with my situation, he remarked that nothing could be done by medical aid, if the constitution itself was not sufficient to throw off the disease.

My friends now despaired of my recovery, and I had no earthly ground of hope to survive many days. Fortunately at this juncture I saw one of Dr. Wistars's Pamentars, entitled "Family Medical Gwide," or "Treatise on Consumption of the Lange." As I had often heard of with m
